SUMMARY

First-year Computer Science student at Beijing Institute of Technology on a fully funded Chinese Government (CSC) Scholarship, with two prior semesters of CS study, four years of freelance web development for international clients, and experience founding and running a small business. Fluent in English (IELTS 7.0) and Mandarin (HSK 5). Interested in software engineering and technology internships at Apple.

EDUCATION

Beijing Institute of Technology — Bachelor's in Computer Science — Beijing · Sep 2026 – Jun 2030 (expected)

- Fully funded Chinese Government Scholarship (CSC)

Capital Normal University — Preparatory Program in Chinese Language and Culture — Beijing · 2025 – 2026 (completed)

COMSATS University Islamabad, Lahore Campus — BS Computer Science, two semesters completed — Lahore, Pakistan · 2024 – 2025

- GPA: 3.7/4.0 · Coursework in programming fundamentals and object-oriented programming (Java, C++)

RESEARCH & EXPERIENCE

Independent Research — PatternForge: Crochet Pattern Generation Prototype (Python) — 2026 – Present

- Built a command-line tool that generates round-by-round crochet instructions from a target diameter and stitch gauge, with readable text and JSON output
- Implemented a pattern validator with 7 rules (structure, stitch continuity, stitch counts, dimensions, circle growth, US conventions); 233 automated tests passing
- Designed a modular architecture (domain models, geometry, generation, rendering, validation) as a foundation for image-based stitch recognition and AI-assisted pattern generation

Freelance Web Developer — Fiverr & Upwork (Remote) — Aug 2021 – Present

- Led end-to-end development of two corporate websites for MCS United Group Holdings (Singapore) and acted as technical consultant for domain acquisition and Microsoft business email migration
- Built front-end websites for international brands, including Dubai fashion label By ALL'E, using WordPress, Elementor, custom CSS and PHP

Freelance Content & Technical Writer — Fiverr & Upwork (Remote) — Aug 2021 – Present

- Wrote company profiles, website copy and blogs on tech, healthcare, beauty and fashion for clients in the US, UK, UAE, France and Australia

Founder — Women-Led Crochet Startup — Pakistan · 2020 – Present

- Founded during COVID-19 to create income for women working from home; recruited and managed a team of 20, ran orders, quality control and delivery, and generated PKR 500,000+ in sales nationwide

PROJECTS — github.com/saweraamir

- **Electronic Health Record System** (Java, Gradle): OOP-based EHR application with a custom UI and a secure login and user-management module with input validation
- **Management System Suite** (Java): cinema, library and university management systems applying inheritance, polymorphism and encapsulation
- **Ping Pong Game** (C++, Raylib): real-time game implementing physics and rendering logic

SKILLS & AWARDS

Programming: Java, C/C++, Python, PHP, HTML/CSS

Tools: IntelliJ IDEA, VS Code, Gradle, Git/GitHub, WordPress, Elementor, MS Office

Languages: English (IELTS 7.0), Mandarin (HSK 5), Urdu (native), Punjabi (fluent), Arabic (basic)

Awards: Chinese Government (CSC) Scholarship, full funding; 3rd place nationally, International Kangaroo Science Contest (Pakistan); full merit-based scholarship at a top-ranked high school
